

**Calculus II, MA 114-002**  
**Spring 2017**  
**Recitation Syllabus**

**Instructor** Li, Ang  
**Email** ali266@uky.edu  
**Meeting Times** TR 9:30 am - 10:45 am, CB 347  
**Office Hours** Thursday 1:30 pm - 3:30 pm in POT 722  
Tuesday 1:00 pm - 2:00 pm in Mathskeller  
or by appointment  
**Course Website** <http://www.ms.uky.edu/~perry/ma114.s.17/>

**Recitation Expectations:** I hope this recitation can offer a better understanding of what you have in the lecture, and you will get familiar about the technical skills to solve the problems. **The goal of this recitation is, first, to survive calculus; then, to succeed in calculus.** Based on my acknowledgement of students' ability of controlling themselves, I ask all students:

- Have the current worksheet at hand, either printed or on your electronic devices.
- Mute all phones and other things make sound, head phone or ear phone is not allowed to be used during recitation, and you should not working on your homework or doing other non-relevant activities.
- During the recitation, you will work in groups which are going to be set randomly. I'll figure out a fancy way to assign, maybe.

**Grading Criterion:** Your grading standard of MA114 is already on the common webpage listed above. Besides that, you need to enroll in MA 194.

- Attendance is required at all recitation periods. A student will be counted absent if they are:

**More than 15 minutes late to class**

**Leave the classroom for more than 15 minutes or leave early**  
without a valid excuse.

If you know you are not going to make it, you must send me an email previously, containing enough evidence of the reason of your absence. **Make sure you get my reply.** (Sometimes the email system not function very well and I lost students' emails) **Three or more unexcused absences will result in a failing grade in MA 194.**

- Quizzes will be given frequently during recitation(mainly on Thursday). I usually return them back to you on the following Tuesday. I accept make-up quizzes due to a reasonable absence, please email me to figure out time.
- You can find all information about midterms and finals on the common webpage, including alternating exams availability.

**Questions and contact information:** I prefer you contact me by email, dropping by my office is also a good way, please definitely take good use of my office hour.

I'm going to check my email at least once a day, quick response might not be available (So you should start beforehand!) but you can expect to get reply in 24 hours.
